

Merrymeeting Wheelers Bicycle Club (MWBC)

Custom Bicycling Jersey Order Form

The Merrymeeting Wheelers Bicycle Club has teamed up with Atayne LLC of Brunswick, Maine to produce a custom MWBC Grind Cycling Jersey.

This jersey is perfect for those who ride hard and tread lightly and is a great tool for the marketing and promotion of our bicycle club. It is made from a lightweight 100% recycled polyester mesh fabric that wicks moisture and dries quickly. The recycled polyester yarns in this garment and resulting fabric is manufactured in North Carolina and the jersey is cut and sewn in Massachusetts.

It takes 70% less energy to produce than virgin polyester preventing nearly 10 plastic bottles from going into a landfill.

The type of printing used is called spot sublimation, which involves a direct change of the state of matter from solid to gas as the ink is transferred to the material. This creates clean, crisp lines while eliminating any potential dye from running since it is essentially fused into the material.

Other features include:

- * Total Weight of 4.5 ounces
- * 100% Recycled Polyester certified to meet the Oeko-Text Standard 100
- * Moisture Wicking, Quick Drying, and Temperature Regulating
- * 3/4 Hidden Zip Allowing for Full Ventilation Control
- * 3 Elasticized Back Pockets to Store All Your Cycling Essentials
- * Raglan Sleeves
- * Slim Racing Cut

Owning this jersey not only makes sense for the environment, but with the MWBC custom logo on the chest and back, it creates a marketing tool for our club and a great topic of conversation for one who chooses to wear it.

In order to optimize the pricing structure for our members, MWBC will subsidize the purchase price at \$55 each including tax. In addition, we have purchased sample sizes so that you can feel comfortable that you chose the proper size when ordering.

On behalf of the MWBC leadership team, we hope you are excited about this new opportunity. Make your choice today...

Thanks,

Rick

President
MWBC
